

I listen to KLOVE everyday and it soothes me with its positive and encouraging music. I pay them a monthly donation to keep them on the air because I feel this station comforts and gives hope to other folks in my listening area. If LPFM takes away my KLOVE fm station, I will not listen to the radio anymore and I will have to switch to cds and tapes. If you take away KLOVE fm from my community, you will be doing us a huge disservice because Christian music is about love and forgiveness and healing broken families and I am not hearing this message being broadcast on secular stations anywhere on my local radio. A lack of encouraging God-centered music will cause those who currently listen daily to become depressed and feel like the FCC doesnt care about our mental health. KLOVE is family friendly and is good for children. I dont want to see this healthy, traditional marriage, building up people station ripped from our grips just because you want to try something new with LPFM. There has to be a way for you to keep the fm translators so that we can keep KLOVE. Please dont ignore my plea as I am depending on you to help me keep some sane and peace filled music on the air for our families and broken hearts in need of healing.
